WHEN PETER TOOK A HINT

Comment on the Uniform International Sunday School Lesson for
June 12, 1927.
Read Acts 12.

WM. SOUTHERN, JR.

Peter Delivered From Prison.

Acts 12: 5-17.

Acts 12: 5. Peter therefore was kept in the prison; but prayer was made earnestly for the church unto God for him.

6. And when Herod was about to bring him forth, the same night Peter was sleeping between two soldiers, bound with two chains; and guards before the door kept the watch.

7. And behold, an angel of the Lord stood by him, and a light shined in the cell; and he smote Peter on the side, and awoke him, saying, Rise up quickly. And his chains fell from his hands.

8. And the angel said unto him, Gird thyself, and bind on thy sandals. And he did so. And he said unto him, Cast thy garments about thee, and follow me.

9. And he went out, and followed, and he knew not that it was true which was done by the angel; but thought he saw a vision.

10. And when they were past the first and second guard, they came unto the iron gate that leadeth into the city, which opened to them of its own accord; and they went out, and passed on through one street; and straightway the angel departed from him.

11. And when Peter was come to himself, he said, Now I know of a truth that the Lord hath sent forth his angel and delivered me out of the hand of Herod, and from all the expectation of the people of the Jews.

12. And when he had considered the thing, he came to the house of Mary the mother of John, whose surname was Mark; where many were gathered together and were praying.

13. And when he knocked at the door of the gate, a maid came to answer, named Rhoda.

14. And when she knew Peter's voice, she opened not the gate for joy, but ran and told that Peter stood before the gate.

15. And these said unto her, Thou art mad. But she confidently affirmed that it was even so. And they said, It is his angel.

16. But Peter continued knocking; and when they had opened, they saw him, and were amazed.

17. But he beckoned unto them to hold their peace, and declared unto them how the Lord had brought him forth out of the prison. And he departed and went to another place.

Golden Text.—Many are the afflictions of the righteous; but Jehovah delivereth him out of them all.—Ps. 34: 19.

(Text is from the American Standard Edition of the Revised Bible, copyright, 1901, by Thomas Nelson & Sons, and used by permission.)

There was one incident in the life of Peter which probably crippled the Christian imagination more strongly than any other of the many of record. It was the escape of the apostle from prison where he had been thrown immediately after Herod had beheaded James in Rome not far from the central railway station and near the Appian way, the Church of St. Peter in Vincola. It was planned by the devoted wife of the Emperor

Valentinian III, to preserve the chains with which St. Peter was bound when in prison. The interior has twenty fluted columns of Italian marble. At one side is the most marvelous statue in Rome, Michelangelo's Moses, sculptured for the tomb of Julius II, which the pontiff wished to have placed in St. Peter's.

In a sarcophagus in the confessional, and on the altar, there is a tabernacle in bronze containing according to tradition, some links of the chain which bound St. Peter, in the sacristy between two columns of most rare green serpentine porphyry, is a great painting by a noted artist entitled "Liberation of Peter from Prison."

Herod Agrippa, a Jew who stood in with the Roman rulers, was a politician. He wanted to curry favor with the powerful Jews in Palestine and receive their support and make himself solid in his position of power, a position which he rather liked and to which was attached many little grafting commissions which made it a very valuable place.

Looking over the situation Herod decided that nothing would make him more solid with the ruling class of the Jews than a persecution of the Christians. He apprehended James who was one of the famous three, Peter, James and John, and had him beheaded. He watched the effect and concluded that it was good and promptly had Peter arrested. His plan was to hold Peter until after the Passover and close the presents of that time with a notable execution, a sight which would long be remembered.

Peter's friends and following were terrified and disorganized. One leader dead, the most active of the three remaining, in prison. They gathered behind closed doors and went. Their weeping became prayer. The prayers in agony of soul went up from every heart.

Rhoda, a young woman of the faith, one of those girls who do not get excited and on whom the older persons always depend, was placed at the door. From the account we have the gathering of Christians was not expecting an answer to their prayers. They could see nothing but Peter in chains and the headless body of James.

There came a knocking at the door and Rhoda tip-toed to the key-hole and listened. The knocking was repeated and an impatient voice called for admission. Rhoda recognized Peter's voice. She forgot to open the door, just like a woman, ran back into the room and told them that Peter was at the door. You know Peter's nature, he must have been impatient and almost angry. The door was opened and there was a wonderful reunion. The disciples were not sure that Peter was alive. They thought he had been killed and that this was his ghost. The belief in ghosts was at that time very prevalent. Even the Christians held on to those old superstitions just as Christians today hold on to superstitions of past ages.

The crowd gathered about Peter with exclamations of joy. Peter told them how he had been released from prison. How he had been sleeping between two soldiers, chained to them on either side, when an angel came, his chains fell off, the prison doors opened and he

was released and came immediately to them.

Peter's stay was not long with his friends. The death of John and his own arrest and miraculous escape were hints enough for Peter. He concluded Herod did not want him around. He believed he would be preserved miraculously, but he was also of the opinion that he ought to do as much for himself as possible and not try out miracles any oftener than necessary. So Peter packed his traveling kit and slipped out that same night.

Peter lived for about twenty years after this incident, preached in many places and never halted in the work he conceived was his duty. But little more is told of him in the scriptures.

I would not have you get from this lesson the idea that no matter what you do, where you are, what troubles you are in, earnest prayer will accomplish your release. I would not have you either to doubt the efficacy of prayer and refuse to use the Christians' avenue of appeal to God.

This and many other well authenticated instances testify in the Bible that God does answer prayer. But also that he does in his own way and time, because He knows what we can not know, whether our prayers should be answered or not. In this case God had twenty years more work for Peter and no Roman chains and guards could hold him. Agrippa was not to have him beheaded.

There are many other cases given where just as earnest prayer was not answered. John the Baptist was beheaded, Jesus himself prayed on the Mount and went from there to his death. Naaman the Syrian, one among many thousand lepers, was healed at the word of the prophet. We may easily pile up the account on both sides.

Most of us know of our own experience of prayers answered. I have a devoted friend who believes that some twenty years ago as he was standing in his front yard and watching a cyclone approach and playing, the Lord caused the whirlwind destruction to rise in the air and skip him and his. I am not questioning this incident at all but I would advise you if you see a cyclone coming to pray while you are running your best toward a place of safety, pray that you will get there ahead of the cyclone.

I believe one great essential of prayer to be that it be made unto God and not unto those who may be standing or sitting near you and listening. It seems to me that most of the public prayers I hear are made for the sake of the congregation. They are mostly speeches made in the form of prayers and in a holy sort of tone, different from the natural voice. Why can you not talk with God in our natural tones? I have heard very few who could do so.

Of course the great lesson for us in this story is embodied in the Golden Text which is not found in the New Testament, but in the Psalms, where it testifies the faith of the old Jews of the days before Christ. The psalmist says "Many are the afflictions of the righteous; but Jehovah delivereth him out of them all." That is the faith I would like to bring to every reader today, the faith in the efficacy of prayer and in the power of God to take care of us under all circumstances. —The Republic Syndicate.

loving help that was offered after his death. Especially do we thank Mr. and Mrs. W. R. Boyd who, after he was taken sick brought him to their home, that the mother would not have the care of the house and could be at his side more.

He was sick ten days with pneumonia.

Dear ones, think not of Tommie as dead, for our loving savior hath said, I go to prepare a place for you. And where he went we may go too, and it will be only a short while until we too, may enter the pearly gates.

On shall there join hand in hand, nevermore to break your family band.

Sun Cooks Fruit

MAKING SUN PRESERVES

Continued sunny weather while strawberries are in season is the time for sun preserves, say Federal home economists.

Three cups of small berries, two pounds of selected berries and two pounds of granulated sugar is a recipe they recommend, and the preserves are made this way:

Select large ripe solid fruit, wash well and cap. Crush and cook three cups of smaller berries for three minutes, stirring all the time. Then strain. This should yield about one cup of juice. To this add the sugar and heat slowly until entirely dissolved. Remove from fire and drop large berries into syrup and allow mass to stand from one to three minutes. Drain fruit from syrup and place carefully on shallow pans.

Boil syrup for about ten minutes. It should be fairly thick. Pour over berries in a thin layer. Cover with window glass, allowing an air space on all sides. Place pans in sun and turn berries over before next day's sunning. Repeat this for three days or until syrup has formed a jelly. This amount yields a little over one pint of fruit.

HOUSEHOLD HELPS

Cotton charmeuse is an excellent material for smocks and house dresses, and because of its smooth, soft texture, for baby's first rompers.

Any fruit juices on hand may be combined in about equal quantities for a fruitade. On a very hot day a little lemon or lime juice is needed to make the drink sufficiently acid to quench thirst. Four or five flavors are usually blended, chosen from those in season. The predominant flavor will give the fruitade its name. Raspberry, grape, pineapple, orange, peach, pear, cherry, blackberry, currant, grapefruit and plum are all good flavors when used in combinations of four or five, sweetened to taste and diluted about half with water.

For sweetening fruitades and punches, make a syrup, using two parts sugar and one part water cooked together about 10 minutes and cooled. This is more economical than sugar alone and sweetens more uniformly.

Butter should be carefully worked until the salt is evenly distributed and a solid, smooth body is formed. The best butter has a waxy body, a bright appearance, and when a slab is broken, a grain like broken steel. Overworked butter has a sticky, salty body, a dull, greasy appearance, and a gummy grain. It deteriorates more rapidly than properly worked butter. Mottled butter is caused by uneven distribution of salt.

Chicken shortcake is boned, stewed chicken in its own gravy, slightly thickened, served on biscuits.

The quickest, easiest and surest method of canning vegetables at home is to pack them boiling hot and process in a water bath for a definite time. The length of time each vegetable should be processed is given in Farmers' Bulletin 1471-F, "Canning Fruits and Vegetables at Home," which may be obtained free from the United States Department of Agriculture.

In making most fruit jellies use three-fourths of a cup of sugar to a cup of pure fruit juice. Too much sugar may prevent the jelly from "jelling," or making it sirupy, while too little may give it a tough, poor-flavored result.

Lettuce is rich in certain of the important vitamins and mineral salts. It also supplies bulk to the diet. Many people now consider lettuce an essential part of their diet throughout the year. Don't leave the lettuce on the plate when a salad is served you.

A small rug that has lost its stiffness so that it will not lie flat on the floor can be resized. Stretch the rug, right and true, and tuck it face down on the floor or some other flat surface where it can be left undisturbed. Then sprinkle it generously with a solution made by soaking and dissolving one-fourth pound of flake glue in one-half gallon of water. The solution is made in a container surrounded by hot water. The rug must dry for at least 24 hours. Be careful not to use too much glue in a light-weight rug or it will penetrate.

HABEAS CORPUS IS
RESORTED TO WHEN
OFFICERS ARRESTED

By Associated Press.
Dallas, Texas, June 8.—Armed with warrants on grand jury indictments charging Milton T. Shafer and Fred C. Simmons, representatives of a Los Angeles bonding company, with kidnapping Carroll Creighton Compton from this city, two deputy sheriffs left here Wednesday for Brownwood.

District Attorney William McGraw telephoned the district judge at Brownwood and requested him not to release the pair as grand jury warrants had been issued.

The two indictments were returned by the grand jury an hour after it convened Wednesday morning.

By Associated Press.

Brownwood, Texas, June 8.—Habeas corpus proceedings were filed in district court here by Fred Simmons and M. T. Shafer, agents for a Los Angeles bonding company, following the arrival of Dallas officers with warrants for their arrest on charges of kidnapping C. C. Compton, fugitive from California.

The Los Angeles men, with their prisoners, Compton and Harry Springate were held here Tuesday

at the request of Sheriff Allan Seale of Dallas. Simmons arrived in Dallas Monday to get Compton, who with Springate, already in their custody, are wanted in Los Angeles, where they are charged with grand larceny and embezzlement of \$5,150. They were each held in Los Angeles on \$5,000 bond which was raised to \$25,000 after they jumped bond.

Reports from Dallas indicate that while talking to the two men, Simmons and Shafer hustled them into an automobile and boarded a train at Fort Worth which would have made connection here with a California train. Compton was at liberty under a \$2,000 bond in Dallas, where he had been arrested as a fugitive.

Brownwood, Texas, June 8.—Habeas corpus proceedings filed Tuesday afternoon by Fred Simmons and M. T. Shafer, agents of a Los Angeles bonding company, after their arrest here on charges of kidnapping C. C. Compton, a fugitive from California, were dismissed by Judge J. O. Woodward, and all are being held pending further action.

S. J. Rogers of Houston is visiting in Corsicana. Mr. Rogers was a resident of this city for many years and has many friends here who are giving him a warm welcome.

BREAK OF ALBANIA
AND JUGO-SLAVIA IS
GOING TO LEAGUE

By Associated Press.
Belgrade, Jugo-Slavicia, June 7.—Public opinion is pressing the government to place the Albanian question in the hands of the League of Nations, following upon the severance of diplomatic relations with Albania.

Political leaders and the newspapers hold that direct negotiations between Italy and Jugo-Slavicia have not produced results. They say that the Albanian minister in Belgrade went a personal appeal to Ahmed Zogu, president of Albania, to settle the question, and that the minister subsequently requested the Foreign Office here for permission to remain in Jugo-Slavicia as a private citizen, fearing possible assassination if he returned to his country because of the stand he has taken in the controversy.

The press and political leaders insist that Ahmed Zogu, in arresting M. Gjurachkovitch, an attaché of the Jugo-Slav legation at Tirana, acted on instructions from Rome. By the arrest of this attaché, they point out, the tension existing since the signing of the Trana treaty was increased.

The break between Albania and Jugo-Slavicia has threatened since

the signing of the Trana treaty between Italy and Jugo-Slavicia several months ago. Jugo-Slavicia charged that the pact contained secret military clauses and enabled Italy to exercise undue influence over Albania. It was charged by Italy soon after the treaty was signed that Jugo-Slavicia was encouraging revolts in Albania and was gathering troops on the border. This was denied and a crisis was averted through the intervention of Paris and London.

Reports of the breaking off of diplomatic relations with Albania indicated the action was due to failure of the Albanian government to accept conditions laid down by Jugo-Slavicia for the release of M. Gjurachkovitch.

The Albanian government contends the arrest of M. Gjurachkovitch was fully justified by the discovery of compromising papers upon him indicating espionage.

HINTS FOR FARM

AND HOME

Furnished by the DEPARTMENT OF AGRICULTURE

Marked improvements in hay marketing is reported from communities in which uniform Federal standards are being applied.

Longleaf pine is a particularly valuable tree for farm woodlands in many sections of the South because of its capacity to grow in the poorest and deepest sandy types of land. It will grow on the driest sandy soils as well as on wet lands, and with its dual products of timber and turpentine, often may convert such land from an economic liability into an asset.

Diarrhea, or scours, the most common disease of calves, is the result of disturbance of the digestive organs and may be caused by irregular feeding, overfeeding, sudden change of feed, spoiled feed, dirty milk, milk fed at uneven temperatures, a dirty milk pail or feed boxes, and damp, dirty stables. As soon as scours is discovered, the affected calf should be separated from the others and the pen disinfected. Feeds should be immediately reduced at least one-half and steps taken to eliminate the above named conditions.

An average of 700 cubic feet of wood is used yearly by every man, woman and child in the United States, records of the forest service show.

Poaks may be taught to eat at the age of two months. Ground oats, wheat bran and corn meal are good feeds. This should be supplemented with good pasture and brack, clean home law. The foal may be taught to eat with its dam or by the use of a "creep."

**HAWAIIAN PLAYERS
BIG FEATURE THIS
YEAR'S CHAUTAUQUA**

One of the big attractions of this season's Chautauqua program is Vierra's Hawaiians, featuring the spectacular musical production, "An Evening in Hawaii." In a setting of colorful, tropical splendor, produced by special lighting and scenic effects and quaint native costumes, the romance of the South Sea evening is most vividly portrayed.

Hawaii is a land where moonlight is the most gorgeous in the world and where every whispering wave breathes of romance and music. You will be enthralled by the native music as it is played and sung by the company of native musicians.

Moreover, they are past masters at the playing of the latest popular airs. They give to the melody of the day a touch of the subtle harmony of the true Hawaii.

George Vierra, the director of the company, first acquainted Americans with Hawaiian music at the San Francisco Exposition, where Vierra's Hawaiians were accorded an enthusiastic reception. He is largely responsible for the subsequent popularity of real Hawaiian music in this country.

The company consists of six artists, who play the ukelele, the banjo and guitar. Melody is the soul of music and this company dispenses it in a generous measure. As singers their voices are unusually clear and sweet, true and flexible.

From the rising of the curtain on the fifth afternoon and evening, until the last number, they will hold an audience spellbound.

The Chautauqua opens in Corsicana this year on Tuesday, June 14th, and lasts through Sunday, six days and nights of exceptionally clean and entertaining features.

**YOUNG WOMAN IS
SERIOUSLY HURT
BY FALL TUESDAY**

Miss Ada Kate O'Neal, stenographer at the American Well and Prospecting Company, was painfully but not seriously injured when she became faint and fell down a flight of iron steps at the plant, to the concrete floor below, Tuesday morning. She was taken to the Navarro County Hospital in the Sutherland ambulance, where she was resting as well as possible Tuesday afternoon.

An X-ray examination was made to determine the extent of her injuries but no serious hurts were found. She received severe bruises about the head, shoulders and knees, and her left ankle was sprained, and she is suffering from the shock.

Miss O'Neal stated to physicians that she had been suffering from a severe headache during the morning and that just as she reached the top of the flight of stairs she became faint. She fell a distance of about twenty to twenty-five feet.

George L. Light of Mildred was in Corsicana Wednesday.

**COTTON ROOT ROT
WILL BE OBJECT OF
RESEARCH EFFORTS**

An investigation and survey of cotton root rot fungi will be made in Navarro county Thursday by Dr. J. J. Taubenhaus of the experimental station of Texas A. & M. College and H. E. Rea of the experimental station at Temple. Henry Gentry, Navarro county farm agent, announces Tuesday.

Dr. Taubenhaus is the plant pathologist of A. & M. college and Mr. Rea is a botanist. These men will secure specimen of the various soils in Navarro county for analysis and make an extensive survey of root rot conditions.

All farmers who are interested in securing information on the subject of root rot are requested to get in touch with Mr. Gentry at the Chamber of Commerce at once.

**FRANK WILLMANN,
PECAN EXPERT, TO
ATTEND MEET HERE**

Frank Willmann of Mason, Texas, who is a pecan specialist for the State Department of Agriculture, will be present for the meeting of pecan growers in the Corsicana Chamber of Commerce Saturday afternoon, June 11th, at 2 o'clock. He will give some demonstrations in budding pecans and will discuss the proper care and treatment of pecan groves.

This meeting will provide an excellent opportunity for persons interested in pecans to get further information on scientific methods of culture, and Mr. Willmann will be glad to answer any questions. Every person in the country interested in pecans is urged to be present. The meeting is entirely free. Local arrangements will be in charge of Henry Gentry, County Agent.

**Stock Raisers Open
Attack on Wolves**

By Associated Press.

Marfa, Texas, June 7. — The mournful howls of the wolf packs, which have struck terror in the hearts of many a cattle and sheep herder in the Big Bend country of Texas, soon may be stilled.

A wholesale wolf extermination campaign is now under way in the highland country of Texas, and since its inauguration more than 2,000 wolves have been poisoned or shot. State and federal wolf hunters are rapidly clearing the country of these destructive enemies of the stockman with traps, and poisoned baits.

The wolves range in size from the small gray coyote to the huge golden black Texas lobo, which attains an enormous size, some specimens weighing 200 pounds. "Old Blackie," huge she-wolf which eluded capture for 10 years and did damage estimated in excess of \$30,000 to the livestock men of the section, recently fell a victim of the trapper. The huge wolf, coal black in color, with whitish green eyes, was caught by a trapper who first captured one of her cubs and used it as a bait to lure the dam into his steel trap. She was taken alive, and several of the larger zoos of the country are seeking to get her as a specimen.

Baits composed of poison enclosed between two pads of pork have been distributed throughout Brewster and Presidio counties by the hundreds of thousands.

In the last few years the Texas highlands have yielded to civilization of a sort, and pure bred livestock is being raised here. The Highland Hereford Raisers' association and the Highland Poultry association have developed into active and constructive organizations. Where a few years ago sheep were unknown, cattle were numbered by the score and poultry was known only by pictures there are now hundreds of thousands of sheep, herds of cattle that recall memories of the Old West, and the poultry industry has assumed proportions undreamed of by the West Texans.

**LOCAL CITIZENSHIP
URGED SEND SPECIAL
LINDBERGH GREETING**

Corsicana, Tex., June 7, 1927.

To the Public:

You may not be able to be present in person at the national reception of Capt. Charles A. Lindbergh at Washington, but for 10 cents you can help make his welcome home the most impressive national reception ever tendered anyone by sending by air mail a personal expression of appreciation of his great exploit that has so redounded to the credit and glory of American aviation.

All mail should be addressed: Capt. Charles A. Lindbergh, care Postmaster General, Washington, D. C.

and should carry the air mail post age, 10 cents per half ounce, and the envelope marked "Via air mail only."

We have on hand at this office a limited supply of Air mail cards which are addressed to Capt. Charles A. Lindbergh, and which we will be glad to give to any one desiring to send greetings to Capt. Lindbergh. These cards can be deposited in any mail box.

Very truly yours,

P. MAYER, Postmaster.

**FORM ORGANIZATION
BACK AMENDMENTS
STATE CONSTITUTION**

By Associated Press.

Austin, Texas, June 7.—First moves to establish a working organization to support the four constitutional amendments submitted to popular vote in August, were taken at a meeting of legislatures, judges, business men, lawyers and others here last night.

Former Attorney General W. A. Keeling was elected chairman of an executive committee to organize a working plan with Speaker of the House R. L. Bobbitt, general chairman.

Governor Dan Moody told the meeting he expects to take the stump for three of the four amendments and vote for all of them. The one he will not speak for is to remove limitations on the governor's and state officials' salaries.

A new law can be passed, refinancing the pay.

Amendments he will speak for are the Stevenson resolution to divide state tax sources with a view of lightening the ad valorem burden, the resolution for a full time man supreme court and the proposal to abolish the system for county officials, invalidated by the United States court.

**NEGRO CONFESSES
TO ENTERING HOMES
CORSICANA CITIZENS**

the Morris, a negro youth, who is not yet 18 years of age, has been arrested and landed in jail by Police Officer Bruce Nutt after a still hunt of several weeks, during which time a number of suspicious characters have been picked up in an effort to find the man who had been entering the home of Corsicana citizens and ransacking them.

Morris has been connected with the burglary of at least ten residences during the last few weeks and has confessed to entering a number of these. He secured his heaviest haul at the home of Tom Hughes where he secured a pair of diamond studded gold cuff links and a \$5 gold piece. At other places he secured lesser articles and in some he only entered the kitchen and helped himself to articles of food.

The homes that are known to have been entered by Morris are Tom Hughes, Dr. I. N. Suttle (several times), Mrs. R. E. Prince, D. N. Rice, C. L. Jester, Alex Levine, Ed McCarver, (three times), Paul B. Harper, W. J. McKie (twice) and John Humphries. At some of these places he secured a small amount of loose change and at two places shoes were taken; a watch and a small amount of money was taken from the Lewy home.

Officer Nutt has been after this prowler for some time and it was through his patient work an intelligent handling of the case that the black was landed.

He was turned over to the county officers and it was stated that sixteen cases would be filed against him, as he entered the Suttle home several different times, the McKie home twice and the McCarver home three times. He made a confession to Chief Knight and Officer Nutt and was later taken to the county where he repeated his confession.

**MAGNOLIA TRINITY
SAND TEST MAKING
EXCELLENT SHOWING**

Added impetus has been given the interest in local oil circles in the Trinity sand pools by the finding of a rich sand in the Magnolia McPherson tract, located about three miles northeast of Rice. A sand was cored in this well last Friday that was saturated with oil, and operations were immediately shut down, casing ordered.

The bit was stopped after it had penetrated the oil sand about six inches in order that casing might be secured and set. At present the well has no casing set except a few joints of surface pipe. The sand was found at 4354 feet and was surmounted by several feet of hard white sand, with no showing of oil or gas.

Six inch casing will be set in the well, but it will probably be several days before the pipe arrives and operations resumed. Drillers have been coring this well every few feet from 4200 feet down to 4354 feet, and several other locations have been made near Rice and work will be started in the near future.

Another play is being given the territory west of Corsicana with two wells going down on the little farm about four miles west of town. One well has been drilled on the little but was junked and abandoned, and the rig skidded about 60 feet west. The second well is down about 800 feet and is being drilled by the Wild Rose Oil Company of Dallas. It will be a Woodruff test.

Another location has been made two locations southwest of the Wild Rose test, and will be put down by Thos. J. Jones et al of Dallas. A derrick has been built and all the machinery is on the ground. The well is expected to spud in the latter part of the week.

Mr. and Mrs. J. M. O'Dell of Dallas spent Tuesday in the city. W. A. Larner and W. L. Lewis of Dallas were here Tuesday.

Mr. and Mrs. C. S. Woods and family left Tuesday for Beaumont where they will visit their son, Hugh Woods and family.

**FORMER SECRETARY
OF TREASURY MAKES
ADDRESS STUDENTS**

By Associated Press.

Greenville, Tenn., June 7.— A challenge to political leaders of all parties to make known their stand on prohibition was sounded here today by William G. McAdoo, unsuccessful candidate for the Democratic presidential nomination in 1924, with a warning that efforts to nullify the eighteenth amendment is part of a movement menacing the foundation of popular government.

Addressing the students of Tusculum College, at commencement exercises, the former Treasury Secretary declared the prohibition question presents a vital issue that responsible statesmanship cannot ignore and called for courageous leadership such as Andrew Jackson might display.

Prohibition Political Issue.

"Prohibition is a practical issue of the most vital kind in which the whole country is intensely interested and upon which it is looking eagerly for courageous leadership," he said. "The question is interwoven with some of the deepest and most challenging tendencies now at work in American life and which it is the imperative duty of responsible statesmanship to combat."

"The attack on the eighteenth amendment is but a part of a great movement which menaces all that is most American in our institutions. It is the fighting front of a conflict that is deeper than the liquor question. The conflict is, shall the constitution be nullified or shall it be enforced?"

Corrupt Political Machines.

"The last few years have witnessed a widespread revival and politics. As the attention of the resurgency of corrupt machineries has become more and more engrossed in their private affairs, their vigilance has relaxed and the old political machines which have held many of our cities in their grip since the days of Boss Tweed in New York and the Gas House Ring in Philadelphia have taken advantage of the opportunity to renew their power."

In two national campaigns they have disrupted and paralyzed one of our great political parties. The signs of their activity are all about it. They are apparent in the startling corruption and frauds which have marked the Senatorial and Congressional campaigns and elections in several States.

"They are apparent in the effort of general municipal bosses to get themselves up as president makers but most dangerous of all, the rising influence of machine politics is seen in the increase of crime and lawlessness and in the concerted attack on the eighteenth amendment."

**BIG DAMAGE SUIT
IS FILED MONDAY IN
DISTRICT COURT**

Souking damages in the sum of \$50,000 for the death of her little daughter, Mozelle McPhail, a suit was filed in the district clerk's office late Monday afternoon by Mrs. Audrie Lee McPhail vs. F. P. McElwath, contractor.

The suit is an outgrowth of the fatal accident at the intersection of South Twelfth street and West Seventh avenue April 30, when the little daughter of the plaintiff was killed by a truck of the defendant, driven by one of the defendant's employees.

The accident occurred just before noon and the little girl died in the Navarro County Hospital a few hours later.

The petition recites that the hospital bills, etc., amounted to \$400, actual damages in the sum of \$40,000, and exemplary damages in the sum of \$10,000 are sought.

The attorney for the plaintiff is J. J. Woods.

**FUNERAL SERVICES
MRS. ROSA RATLIFF
WERE HELD TODAY**

Funeral services for Mrs. Rosa Ratliff, aged 26 years, who died at the residence of her father, W. H. Meyer, 722 West Tenth avenue Monday evening at 7:15 o'clock, were held Tuesday afternoon at 2 o'clock at the First Methodist church with interment in Oakwood cemetery.

Surviving are her parents and numerous other relatives.

**MEDICAL SOCIETY
HELD INTERESTING
MONTHLY MEETING**

Regular monthly meeting of the Navarro County Medical Society was held in the Chamber of Commerce headquarters Monday night with more than twenty-five doctors from over the county present.

Dr. J. R. Dickson of Dawson read a paper on "Urologic Problems in Practice" which was followed with a round-table discussion. Dr. Gurley Sanders of Ennis was to have appeared on the program but was unable to attend the meeting.

The next meeting will be held the first Tuesday night in July.

**SAVE A LIFE
LEARN TO SWIM**

DID YOU KNOW—

that in Sweden the Minister of Public Education has decreed that all students flunking in swimming will be barred from other examinations.

—that in France the law requires that the public school students must be able to swim.

—that in one middle western university in the U. S. you cannot graduate unless you can swim.

WHY?—Because education will be useless to a drowned man. Because you can save your own life and perhaps another. Because it offers a clean healthful exercise. The Texas University now requires its students to take some form of exercise. Why not make it swimming?

Are you taking the best possible care of your flies and skeeters these days?

Do you inspect their quarters daily, and see that screen doors are properly adjusted so they can't break out? Do you see that the screens over the windows are securely tacked down and that the screen is fine enough mesh to keep the young skeeters from roaming around the neighborhood? If not you had better call and get the goods.

I have discovered that skeeters and flies like ice cream. Have you supplied yourself with ice cream freezers to keep them fat and happy? I can sell you a good 2-quart freezer for only \$1.00. Remember that the health of your family depends on the attention you give to your flies and skeeters.

Flies and skeeters are very fond of Home Brew. Have you laid in a stock of MALT to supply their demand? I have a good stock of Buckeye, Blue Ribbon, Budweiser and Schlitz that are fine for fattening purposes and if any member of your family is puny and run down at the heel, I advise you to call and get some of the "uplift" goods for the ladies. Call and look over my line of Fish Hooks and Frying Pans, both very useful on a fishing trip.

Kyanize paint for pale people, shoes, tin Lizzies, rusty bedsteads, and run-down-at-the-heel chairs.

My nails have all been manicured and are retailing at 5c per pound.

CORSICANA YOUTH GIVEN 99 YEARS TO GET ANOTHER TRIAL

By Associated Press.
Austin, Texas, June 8.—Finding no reversible errors, the Court of Criminal Appeals today affirmed three life sentences and one 45-year sentence.

Those affirmed: W. M. Hoover, convicted in Wichita county of murder in connection with the slaying of Mrs. Katie Goodman, November 16, 1926, and sentenced to life.

Matthew Thomas, negro, convicted in Travis county on charge of venue from Bastrop county of criminal assault in connection with an attack on Minnie Carlow, in March, 1925, 89 years.

Raul Morales, sentenced to life from Randall county, offense occurring in Armstrong county, on murder conviction following the killing of J. E. Newberry.

Lyster Huffman, 45 years sentence from Wilbarger county on robbery conviction in connection with the alleged holdup of Dewey Marsh and theft of \$7,596 from him about December 18, 1926.

The case of Lester Paulk, sentenced to 99 years from Ellis county on criminal assault conviction after an alleged attack on Bess Hilderbrand in Navarro county about August 7, 1925, was reversed and remanded.

Motion for rehearing by W. A. Martin, sentenced to 99 years from Denton county on conviction of murder growing out of the slaying of R. B. Parsons, an officer, August 6, 1925, was denied. Martin was tried in Dallas county.

Accepts Clemency Barred From Appeal

By Associated Press.
Austin, Texas, June 8.—Acceptance of executive clemency by a defendant while his appeal is pending prevents further prosecution of the appeal, the Court of Criminal Appeals held today in dismissing appeal of S. E. Goss of Fannin county.

Goss, convicted in Hunt county, apparently on change of venue, of murder and sentenced to 25 years, received a commutation of sentence to two years from former Governor Miriam A. Ferguson while his appeal was pending, in Criminal Appeals Court.

His latest contention was that five years is the lowest legal sentence and that commutation of the sentence to two years virtually is a release for him.

The court denied his claim. Goss now must serve his sentence, and his appeal was dismissed on the ground that he has no right to further prosecute it and no order allowing him bond pending appeal also was struck down.

**Britain Sees Trouble
Account Assassination**
By Associated Press.

London, June 8.—The assassination of the Soviet Minister to Poland, M. Volkoff, is regarded here as creating a dangerous situation between Soviet Russia and Poland. Developments are being watched with anxiety today.

"It does not create surprise," the Daily News comments, "that as Moscow reports, Russian opinion sees the hidden hand of Great Britain behind the assassination of Volkoff. It will not be surprising if Moscow mentally holds British statesmen directly responsible for the murder. Nonsensical as such accusations appear to intelligent persons, they, nevertheless have to be reckoned with seriously in the devil's game of international politics."

Strange Dog Attacks People at Rural Shade Is Killed With An Axe

Special to the Sun.
Kerens Texas June 9.—A strange dog thought to have been afflicted with rabies, was killed at Rural Shade Tuesday morning after it had attacked Mrs. C. C. Dunn and a negro man who was passing in front of the Dunn residence. Mr. Dunn stated that the dog was seen coming down the road at a rapid pace, and that when it reached his home it attacked a negro, Nolen Williams, who was in its path. Williams fought off the canine with a hoe, the animal then running into the Dunn residence where it attacked Mrs. Dunn. Again the dog received a full share of punishment at the hands of Mrs. Dunn and her son Virgil, who secured an axe for their weapon.

Fortunately no one was bitten by the animal which showed signs of rabies.

Mr. and Mrs. Dunn reside on the Coates farm one-fourth mile east of Terry's store at Rural Shade.

KANSAS MAN IS BURIED AT KERENS THURS. AFTERNOON

Special to the Sun.
Kerens, Texas, June 9.—Funeral services were held here Thursday afternoon at the home of Mr. and Mrs. George Hemphill for P. R. Hemphill, who passed away at his home in Blott, Kansas Sunday at six o'clock. Rev. Joe N. Everheart, pastor of the Presbyterian church of this city, conducted the services. Burial followed in the Kerens cemetery.

The deceased had suffered from stomach trouble about four or five years but was apparently in good health up until a few days prior to his death. The message received by relatives here was a complete shock to them as well as friends of the family. The body arrived in Kerens Thursday morning over the Union Pacific Railway Lines from Blott, Kan. to Texarkana and from there over the Cotton Belt Lines.

P. R. Hemphill was born in Georgia and came to Texas with the family in 1892, settling in Panola county. Years later he accepted a position with a telephone company and worked with them in Waco. His work carried him to different parts of Texas, later returning him to Waco as District Manager of their concern. From there the deceased went to Abilene, Kansas, and thence to Beloit where he had resided about five years. He was 43 years of age at the time of his death.

The deceased is survived by his wife and two young daughters, Helen and Alma Lee of Blott, Kansas; his mother, Mrs. Fannie Hemphill, Kerens; four brothers, Wiley, George, Blant, of Kerens; L. S. Hemphill, Frederick, Okla., and a sister, Mrs. W. S. Price Kerens.

Thomas Knight and F. E. Hushnath of Dallas were in the city on business Tuesday.

Exhibits Boll Weevils in Kerens

Special to the Sun.
Kerens, June 9.—J. A. Anderson was exhibiting seven or eight boll weevils which he found in his cotton Tuesday. He stated that while he was walking through his cotton he noticed some squares lying on the ground and upon examining them he found the full grown boll weevils. Mr. Anderson said that he found them in the middle of his field, there being no fence row or timber near.

Thomas Knight and F. E. Hushnath of Dallas were in the city on business Tuesday.

RANGER PROBED CONDITIONS AT PRISON BRANCH

By Associated Press.
Austin, Texas, June 9.—Investigation of conditions in a branch of the prison system other than that at Huntsville has been completed by a Texas Ranger, it was learned today.
Whether a report will be made public is doubtful.
Governor Moody already has un-

der advisement a Ranger's report on an investigation he publicly ordered some time ago as a result of "recidiv" charges made by L. B. Smith of San Antonio, former convict. The report likely will be given out soon.
The second investigation, which was kept secret, concerned a reported mutiny at one of the prison plants and conditions resulting from the affair.

PLEASANT HOUSE PARTY ON LAKE NEAR MALAKOFF

A delightful house party came to a close yesterday evening when the Bush Wofford party returned home from a several days' visit to the beautiful Stevens Lake south of Malakoff. Stevens Lake is one of the prettiest locations for a club house in East Texas, and with an attractive and comfortable club house, with all conveniences, made the house party all the more enjoyable. Much merriment was enjoyed in picnicking, dancing, swimming, fishing in the big lake and game hunting, to say nothing of interesting games, etc.
The party which left early Monday morning by automobile, was composed of Mr. and Mrs. R. J. Jackson, Mr. and Mrs. Clyde Stroud, Mr. and Mrs. A. H. Kerr, Mr. and Mrs. Lowry Martin, Mr. and Mrs. W. M. Clarkson, Jr., Mr. and Mrs. Reuben Neece, Mrs. Lurette Jackson, W. H. Penland and the popular host and hostess, Mr. and Mrs. Bush Wofford, who spared no expense and gave their entire time in seeing that the party enjoyed themselves to their hearts content.

HIGH DEMOLAY ORDER TO BE CONFERRED IN CORSICANA SOON

The Past Master and Master Councillors, State association of Demolay, will meet in Corsicana Friday and Saturday of next week in a business session. Members of the order from all sections of the State are expected to attend.
The local chapter of Demolay will be hosts for the meeting.
One feature of the meeting will be the conferring of the Legion of Honor degree, the highest degree to be conferred by the Grand Council, Order of Demolay, on Burris C. Jackson, of Hillsboro, president of the Past Master Councillors' Association of Texas.
Jackson was elected to this honor at the last session of the Grand Council in Louisville, Ky. The Legion of Honor degree comes for outstanding service to the order, and is the only honor made by the Grand Council itself. Austin, Fort Worth and Amarillo will also have men at the meeting to receive this degree. There are less than a dozen Legion of Honor men in Texas.

GREAT ARRAY OF NEWSPAPER MEN TO "COVER" LINDBERGH

By Associated Press.
Washington, June 9.—Probably never before in history have American press associations and newspaper men made such elaborate arrangements for reporting an event as they have for "covering" the return to this country of Colonel Charles A. Lindbergh and his official reception by President Coolidge.

Long before the Memphis reaches the Virginia Capes, an army of journalists, feature writers and just plain reporters will swing into action, with its ranks augmented rapidly as the cruiser passes up the Potomac and finally delivers her hero to the official reception committee at the Washington Navy yard.

The vanguard of this army will be one hundred miles to sea on naval planes to meet the Memphis and then wing their way back to land to report the reception there of the flier by his fellow aviators of the army and navy.
Still other writers will speed out into the Atlantic on destroyers to add their output of the "first of millions" of words which for more than sixty hours will test the capacity of a greater portion of the network of telegraph and telephone wires of the country as well as the government radio facilities.

Special Precautions To Protect Lindy

By Associated Press.
Washington, June 9.—Extraordinary precautions to guard Colonel Charles A. Lindbergh during his official reception and stay in Washington will be taken by the metropolitan police and the Army.
This was disclosed today after Frank B. Noyes, publisher of the Washington Evening Star, had delivered to the semi-official reception committee a warning on this subject from Ambassador Hough, London, who has just returned here from London, and who was caught in the terrible jam at Croydon Field, England, when a crowd of some 200,000 persons rushed toward Lindbergh after he landed there from Belgium.

Brigadier General S. D. Rockenbach, commander of the Washington army district, and grand marshal of the parade arranged for Lindbergh, said that should the crowd rush the aviation hero while he was moving along Pennsylvania avenue the 2,000 troops in line, including the cavalry escort, would surround his car and afford necessary protection. These same troops, including some sailors and marines, will form a human chain around the reception platform at the Washington monument grounds, while President Coolidge is welcoming Lindbergh and decorating him with the distinguished flying cross.

French Flyers Make Ready For Flights

By Associated Press.
Paris, June 9.—Now that Colonel Charles A. Lindbergh is on his way home and the first excitement over the New York-Berlin flight has subsided, French aviators are resuming preparations for their own attempts to fly from Paris to New York.

M. Drouhin, the noted long distance flier, today began tests of his big two-motored plane which will carry a navigator and radio operator. Prior to a Paris-New York jump, however, he hopes to recapture the continuous flight time record which he lost recently to Clarence D. Chamberlin, who remained in the air more than 51 hours in the same plane with which he made his New York-Germany hop. There are other aspirants here for trans-Atlantic honors.

Invitation Awaits Lindy For New Flight

By Associated Press.
Washington, June 9.—An invitation is waiting here for Lindbergh to participate in a Dallas to Hong Kong flight.

Senator Mayfield of Texas has the invitation. The flight, which carries a prize of \$25,000, is sponsored by William E. Easterwood, Jr., of Dallas, in commemoration of Lieut. Jesse Easterwood, who planned a New York to Paris non-stop flight but was killed in a crash in Panama before he could attempt it. Two stops would be permitted, one at Honolulu and one at either Guam or Manila.

Markets Close for Lindbergh.

By Associated Press.
New York, June 9.—The board of governors of the New York Stock Exchange voted to close the Exchange all day Monday in observance of New York City's welcome to Colonel Charles A. Lindbergh.
The curb market also voted to close Monday.

Two Cent Cut in Gasoline Prices

Kansas City, June 9.—A 2-cent cut in gasoline prices to 16.9 cents a gallon, including 3 cents taxes, was announced here today by the Standard Oil Company. Other companies here are expected to meet the reduction.

AMERICAN FLYERS FETED AND FEASTED EVERY HOUR OF DAY

By Associated Press.
Berlin, June 9.—Feted and feasted ever since they landed on German soil after their flight from New York, Clarence D. Chamberlin and Charles A. Levine, were on the threshold today of still further honors. The enthusiasm of the country over the flight, knows no bounds and organizations and individuals are competing to entertain the aviators.

Among the many suggestions that have been made is one that when Chamberlin returns to the United States he be taken aboard a German war ship, preferably the Cruiser Berlin.
On Saturday the two aviators plan to fly to Potsdam in the company of leading German Air League officials. Next day they expect to fly to Vienna. They will return to Berlin Thursday, proceeding by air to Bremerhaven to meet their wives due from New York next day.

Enthusiasm Runs High.
Such enthusiasm has been aroused over the flight is rarely seen in Berlin. From the time the fliers rose yesterday to keep their appointment with President Von Hindenburg until they returned to the American Embassy, their headquarters, to dress for an official dinner, they were constantly obliged to acknowledge greetings.
The populace not only talks about the two Americans, but sings about them. A hastily composed ballad, sung to the tune of a well known German ditty, is heard everywhere.
The newspapers are filled with columns of descriptions of the flight and its significance and praise for Chamberlin and Levine. Only a few papers have fault to find. "The Communist Rote Fahne" (Red Flag) describes the Lindbergh and Chamberlin flights as tests by "American imperialism" of the possibility of aviation, with a view later to "bombing attacks from the air."

Paints Militaristic Picture.
"Unfortunately," says the Left Democratic Volks Zeitung, "the bright picture of this great technical achievement, also shows up some dark shadows. Here, too, militarism will seize upon the crossing of the ocean as an excuse for making military use of the Americans' flight."
German engineers, airplane manufacturers and aviators who flocked to the Tempelhofer field to inspect the Bellanca plane Columbia, were enthusiastic over its construction.

Chamberlin Tells of Accident Plans

By Associated Press.
Berlin, June 9.—Clarence Chamberlin, pilot of the trans-Atlantic monoplane, Columbia, told the American newspaper correspondents today what he would have done had the engine failed or had he been forced to descend on the ocean.
"In the first place," he said, "we had the landing gear so adjusted that we could have dropped it quickly."
"Secondly, I planned to let out all our fuel through a valve at the bottom of the tank, and then close the valve again. The tank, filled with air, would then have kept us afloat indefinitely, provided the storm was not too bad and the waves too high."

CHAMBERLIN AND LEVINE GIVE OUT BERLIN STATEMENT

By Associated Press.
Berlin, June 9.—Charles A. Levine declared today that he and Clarence Chamberlin planned a regular trans-Atlantic aerial service, using multi-motored machines capable of carrying 2,000 pounds each.
Levine stated that he was ready to put \$2,000,000 into the scheme, and that both he and Chamberlin thought it could become operative within a year.

The plans envisaged by the two men who spanned the Atlantic from New York to Germany in the Bellanca monoplane, Columbia, would provide for regular trans-oceanic lines from America to various points in Europe.
Chamberlin said: "The machine we intend to have built is unlike anything known here in Germany."

As part of the development of trans-Atlantic aerial lines, Chamberlin thinks floating landing places anchored in various parts of the ocean may be desirable for emergency landings, but he does not seem to attach prime importance to this feature, which has been described in the United States press as an absolute necessity.

"The main thing," he said today, "is the constant development of more efficient machines which can carry a greater useful load in proportion to their weight."

ALLEGED SLAYER MATHIS PHYSICIAN FILES AN APPEAL

FREE CONCERT BY MUNICIPAL BAND AT NATATORIUM SUNDAY

Announcement was made Thursday that the Municipal Band under direction of Joel Trimble would give a free concert at the Natatorium Sunday afternoon, beginning at 5 o'clock. This band is a first class musical organization and has given several concerts here this year that have attracted large crowds and afforded much pleasure.

It was stated that this concert would be free to all, there being no admission charge at the gate. It was also stated by Robert Cooksey, manager of the Nat that he was negotiating with the Wortham Band for a concert at the Nat at an early date, and also that band concerts would probably be made a regular feature of the Natatorium entertainment in the future.

thought to have been slain May 20, 1926.

Leahy first was tried in Live Oak county and drew 50 years. On new trial in Williamson county he was assessed the death penalty.
The appeal will not be acted upon until the next term of court, as the present term of court will be adjourned around June 25 for the summer vacation.

ROTARY TO WORSHIP ST. JOHN'S CHURCH SUNDAY MORNING

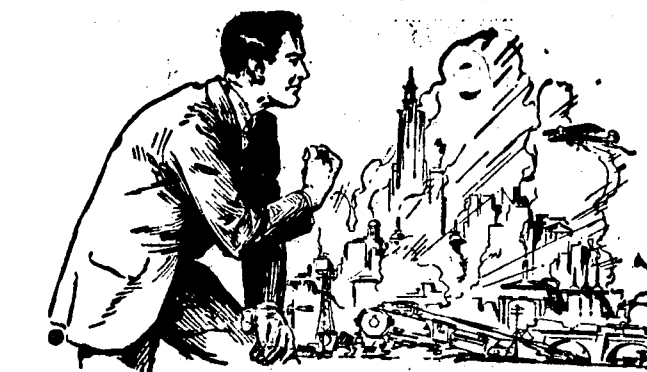

The Rotary Club has accepted an invitation to worship at St. John's Episcopal church Sunday morning, June 12, and President Charles G. Jester is anxious that every local Rotarian and their wives attend this service in a body. The Rev. H. J. Ellis, rector of St. John's, is a member of the Corsicana Rotary Club, and extended the invitation for Rotary to worship in his church recently and the invitation was unanimously accepted.

A special service for the Rotarians has been prepared, and the choir will render special music for the occasion, and it is expected that the Rev. M. Ellis will preach a sermon appropriate to the occasion. A large turnout of Rotarians and their wives is anticipated at this service. The general public is also given a cordial invitation to be present.

MUCH INTEREST IS BEING TAKEN ROAD BUILDING PROGRAM

COMPLETION OF GAPS IN EXALL HIGHWAY EXPECTED TO BE MADE

Special to the Sun.

Mexia, Texas, June 9.—Following a meeting held Monday at Brenham when 75 men interested in building a road from Kosse to Brenham made plans for pushing the link through preparations are being made all along the X-All highway for a big meeting in Calvert Tuesday, June 14, when advocates of road improvements and representatives of the highway commission will get together.

The meeting Monday at Brenham showed that all of the needed right of way for a new road from Kosse to Brenham through Falls county will be donated by the property owners. More than 90 per cent of the property owners were represented at the meeting.

E. C. Woodward, division engineer and U. S. Young, his assistant, were present at the meeting and assured the delegation that the state was ready to do its part to encourage completion of this Houston to Dallas highway.

The temporary organization formed recently at Marlin, with W. T. Thagard, of Kosse, as president will foster the Calvert meeting, when Bryan, Corsicana, Dallas, Houston and other towns will be represented.

A committee of which S. M. Peters of Brenham is chairman was given authority to obtain right of way assignments for the association. An entirely new road will be built.

J. I. Riddle and Jere Cason, of the Chamber of Commerce of Mexia, represented this city at the conference. County Judge Fountain Kirby was also at the meeting. With the voting of \$2,600,000 in bonds by Navarro county, a part of which is for the X-All highway, funds have been provided for paving that road and through Navarro, Freestone and part of Limestone counties. The state will gravel and top with asphalt the remainder in Limestone county and improve other sections.

The purpose of the new association is to push to immediate completion the highway from Dallas to Houston. It is state highway No. 7.

Notice is given of a new offering of UNITED STATES TREASURY BONDS, dated June 10, 1927, and bearing interest from that date at the rate of 5% per cent. The bonds will mature in twenty years, but may be called for redemption after sixteen years.

Second Liberty Loan bonds will be accepted in exchange at par, accrued interest on the Second Liberty bonds offered for exchange will be paid as of June 15, 1927.

Second Liberty Loan bonds have been called for payment on November 16, 1927, and will cease to bear interest on that date. Holders of such bonds who desire to take advantage of the exchange offer should consult their bank or trust company at once. The exchange privilege will be available for a limited period only, and may expire about June 15th.

Further information may be obtained from banks or trust companies, or from any Federal Reserve Bank.

A. W. MELLON, Secretary of the Treasury, Washington, May 31, 1927.

LOWERED PRICES!

Hicks Lowered Prices mean that those listed here are lower than those prices previously established, up to the beginning of our Million Dollar Sales Campaign—Prices that had a meaning—Prices that were gaining additional customers for our Stores and Associated Stores each day—Prices recognized by the Tire Buying Public of Texas as the LOWEST of all low prices yet made LOWER for our MILLION DOLLAR SUMMER SALES CAMPAIGN.

MILLION DOLLAR

A Million Dollars represents numerous carloads, even trainloads of tires—an almost inconceivable quantity of merchandise to be sold in a very short length of time. Compare Hicks prices with any other advertised prices. We invite this comparison. We also ask you to compare Quality, Mileage, Weights, Plies, ALL of which go to make up values in tires.

SALES CAMPAIGN

Our sales since this campaign started have convinced the most skeptical of its overwhelming success. Last Saturday was the largest single day, in point of sales, in the history of the Hicks Rubber Company. Full value tires—Quality tires at unparalleled prices strikes the keynote of its success.

JOHNSON SPEAKS ON CONDITIONS IN FLOODED DISTRICT

The fourth monthly meeting of the Methodist Men's Luncheon Club was held in the Educational Building of the First Methodist church Tuesday night, with a good attendance. Hon. Luther A. Johnson was the speaker of the evening.

The invocation was pronounced by Rev. A. W. Hall. Miss Ruth Matthews gave two negro dialect readings that were very entertaining. Dr. Curtissimo, a famous pschylet visiting in Corsicana, was then introduced and performed several mystifying feats, after having his eyes securely covered. Some of his performances included telling the time, problems in arithmetic, the identification of small objects, and the describing of the attire of some of those present. Only one obstacle fell in the doctor's way and that was produced when someone placed a part of

an adding machine in front of him, which he was able to describe but could not name.

J. L. Haffert, president of the club, announced that no more meetings of the club would be held until October 1, the first Tuesday in that month. The program committee for Tuesday night was composed of A. D. McMichael and A. L. Thompson; while Harrison Bondley and A. B. Douglas had charge of the publicity and arrangements.

Hon. Luther A. Johnson, speaker of the evening, was then introduced as the speaker of the evening. Mr. Johnson returned to Corsicana Tuesday from a tour of inspection of the flooded districts of Missouri, Arkansas, Mississippi and Louisiana, with members of the Flood Control Committee of both branches of the National Congress.

The speaker pointed out that the Mississippi had a way of being the center of attraction as well as the center of the nation. He also stated that the next Congress of the United States would have one of the most vital problems to solve that has ever faced that body. Nine of the twelve members of the House committee made the trip along with four members of the

Senate Commerce Committee, which has jurisdiction in such problems.

Various means of transportation were used on the trip, everything being included except the airplane; passenger trains, flatcars, canoes, wagons and mules, rum chasers and a captured rum boat were among the means used.

The party began its tour of inspection in the southern part of Missouri, where the damage was mostly confined to the west side out that of the ten breaks in the river. Mr. Johnson pointed out that the crevasses had occurred on the west side of the river. FLEET PASSENGER AIRPLANES WILL BE PUT IN COMMISSION

By Associated Press.
New York, June 7. A company to build multi-motored airplanes each capable of carrying not less than forty passengers to Europe on a commercial basis is being organized by Giuseppe M. Bellanca, designer of the craft that carried Charles A. Levine to Germany. Mr. Bellanca said the financial backing for the project had been assured, but declined to reveal the names of his associates. He said the total flying time from New York to Paris will be thirty-two hours. There will be a stop at New Foundland and another at the Azores, where a ship will be taken on, bringing the total traveling time to thirty-six hours. The planes will have a cruising speed of 120 miles an hour, he declared.

SENATOR SMOOT GIVES INFORMATION FROM PRESIDENT

By Associated Press.
Washington, June 8.—Congress will be called into special session in October, Senator Smoot of Utah declared today after a conference with President Coolidge.

Upon leaving the White House, the Utah senator represented the President as being convinced of the wisdom of the session.

Senator Smoot declared that the deficiency appropriation bill failed of action at the close of last session, tax reduction and settlement of election contests were problems that must be taken up at an early date along with flood control measures.

No Decision on Call Session is Stated

By Associated Press.
Washington, June 8.—Prediction by Senator Smoot of Utah that President Coolidge would call a special session of Congress in October were followed later in the day by a White House informal announcement that the president had reached no decision on the question.

COURT HOUSE NEWS

From Tuesday's Daily District Court.

The case of F. N. Drane et al vs Humble Oil and Refining Company, et al., damages in the sum of approximately \$40,000 for damages alleged to have been done to the field here, is on trial in the district court. The case was started Monday afternoon. This is said to be one of the largest salt water damage cases in the State and is being watched with considerable interest, not only here, but at all other vicinities where there are oil wells.

District Clerk's Office.

The following cases were filed: Mrs. Audrie Lee McPhail vs. F. McElwath, damages.
Central State Bank of Corsicana vs. John G. Zaranoff et ux, debt and attachment.

County Court.

An error was made Monday in the report of the petit jurors being summoned for next week in the county court in that the article stated that they were summoned for the week beginning Monday. Judge Warren Hicks stated that the jurors had been summoned for Wednesday, June 15 instead of Monday, June 13.

FOR CONSTIPATION

Mississippi Man Says He Has Found Black-Draught So Satisfactory, He Has No Need to Change.

Wiggins, Miss.—Mr. A. L. Cone, a well known Wiggins resident, says: "I have used Theodor's Black-Draught for constipation. I have never had to take a great deal of medicine, but for fully 30 years I have, by using it, known Black-Draught to be a great medicine, and when I found it so satisfactory, I haven't seen any need to change."

"When I get constipated, I feel all out of sorts and tired and sluggish and I take a few doses of Black-Draught. It regulates my bowels and I get all right. My wife takes more Black-Draught than I do. She is a great believer in it too. So we keep it in the house. It will cleanse the system and help you, if you use it as we have."

Constipation leads to a great deal of sickness among those who do not understand its dangers, and who neglect to treat it without delay.

Black-Draught, with the natural, prompt action of its purely vegetable ingredients, quickly relieves constipation and helps to drive out the poisons so as to leave the organs in a state of healthy activity. Sold everywhere, 25c. NC-179

RESERVATIONS FOR
ALL TEXAS SPECIAL
GOING RAPIDLY

By Associated Press.

Dallas, Texas, June 8.—More than 80 reservations representing forty Texas cities have been made to date on the "All Texas Special" for the good will tour to 15 large cities of the United States, it was announced Wednesday.

The party headed by Governor Dan Moody will leave on the night of June 19.

ALL TEXAS SPECIAL ENVOY LEAVES AHEAD OF BUSINESS TRIP

To arrange "contacts" in the several cities with members of the "All-Texas Special," W. Roy Christian, advance "envoy" of the good will tour which will be headed by Gov. Dan Moody, left for Kansas City Sunday afternoon. "The All-Texas Special" will carry a party of between 125 and 150 representative Texans to 40-45 Northern and Eastern cities, leaving Dallas Sunday night, June 19. The purpose of the trip is "to visualize Texas up-to-now" to resources, markets, transportation facilities and other particulars and also to let folks up East know exactly what the latter day Texas looks and acts like.

Mr. Christian will call upon the Chambers of Commerce in each city to be visited. He has already heard from all of the points and they are uniformly anxious to arrange entertainment.

"There has already been received an invitation from Secretary of Agriculture W. M. Jardine," Mr. Christian said, "to have the party visit his department in Washington, so that they might see what is being done with regard to improvement of crops peculiar to the South. In addition the Washington Chamber of Commerce wants the party as guests for luncheon at the Washington City Club. Like suggestions have come from every city. It is these arrangements that will be worked out in advance."

The party is to be entertained on the night of departure with a "going-away" dinner in Peacock Terrace at the Baker Hotel, when the hotel management will be host.

The "envoy," who is manager of the Corsicana Chamber of Commerce, said that General Chairman Lowry Martin, also of that city, had reported three more additions to the party in Sunday morning's mail. They were A. L. Smith, Hillsboro; Roy Kurth of Turkin, and S. A. Henderson of Keltys, head of a big East Texas lumber concern.—Dallas News.

Mrs. R. T. Irwin and daughter, Billie Jane of Rice were visitors in the city Wednesday.

Miss Glenn Mitchell leaves Thursday for Rock Hill, S. C., on a visit to friends.

Mr. and Mrs. J. A. Rhodes of Dallas spent Wednesday in Corsicana.

Mr. and Mrs. S. W. Bennett of Shreveport were here Wednesday. J. C. Jones of Waco spent Wednesday in the city.

Mr. and Mrs. F. B. Woods of Tulsa, Okla., spent Wednesday in the city.

G. A. Weaver of Mexia was a business visitor in Corsicana Wednesday.

"THE FIREFLY" TO HEADLINE SIXTH DAY CHAUTAQUA HERE

With Lon Carter, well known comedian playing the role of the confidential secretary in The Firefly, the success of this popular comic opera is assured for the season.

If "The Firefly" was to be produced for presentation on Broadway, it could scarcely have received more attention in choosing the cast, scenic effects, costumes, etc., than it has received for its triumphant tour of the Premier Circuit.

The music throughout the comedy is exceptionally well chosen and gracefully executed. Every member of the company is gifted vocally, and the strains are tuneful as well as catching. The selections are interwoven with amusing situations and clever dialogue.

The plot is centered about the carefree life of Nina, a street singer, which role is filled by Laura Townsley McCoy, a dainty creature, and a sensational singer and actress. She appears in the scene in the first act when Mrs. Oglesby Van Dare, a Gotham grand dame, is leaving the pier at Twenty Third street with a party

of friends for her estate in the Bermudas. Young Jack Travers, one of the party, is engaged to Mrs. Van Dare's niece, Geraldine, a much spoiled and jealous young woman. Nina's captivating manner, when she sings at the pier, causes the start of an endless quarrel between the two lovers. The pretty Nina manages to get aboard the yacht disguised as a cabin boy, and assumes the name of "Tony."

In Bermuda the girl's voice attracts her to Franz, a choir master and old friend of Mrs. Van Dare. Finally he adopts her, thinking her a boy.

Thrills are plentiful in the last act, when further complications arise. Of course Nina becomes famous. The play closes with a double wedding and everybody happy after some interesting adjustments.

Mr. Carter affords a wealth of diversion and humor from beginning to end. He has scored hits in "Tangerine," "Irene" and several other notable productions on Broadway.

"The Firefly" will be the headline bill, closing the Chautauqua program here on the evening of the sixth day.

Carroll Pickering of Tulsa was in the city on business Wednesday.

Sue Nell Melton and Emogene Cole of Blooming Grove spent Tuesday in the city shopping.

STATEMENT MADE REGARDING NAMING NOTARIES PUBLIC

The Daily Sun has received the following letter from Senator Julian P. Greer from this Senatorial District, which is self explanatory:

Austin, Texas, June 7, 1927.
Corsicana Sun.

Dear Sirs: Due to so many inquiries regarding the status of Notaries Public appointed during this session of the Legislature, I desire to make the following statement.

The Governor requested that all Notary appointments be confirmed at the last of the session so that there would be but one list. The list will reach the County Clerks after the tenth of the month but the provision of the law applying to regular appointments does not apply in the case of special appointments, and all Notaries appointed at this session of the Legislature may qualify at any time after the County Clerk has been notified of their appointments.

Very truly yours,
JULIAN P. GREER.

MATTHEW KIMES IS SAFE AGAIN FROM PURSUIT BY LAW

By Associated Press.

Pawhuska, Okla., June 7.—Branding two automatic pistols, implements of his trade, Matthew Kimes again has made a dramatic appearance and again today vanished in the tangled ravines of the Osage hills, which so often have proved his refuge.

All night peace officers guarded the highways near Pawhuska, made almost impassable to motor traffic by recent rains, in hope that Kimes might be stopped and borne to the penitentiary to serve a life sentence of murder which hangs over his head. The vigil, however, was fruitless. Despairing of finding the outlaw in the thickets 45 miles long and 10 miles wide into which he vanished yesterday after appearing here and commanding a motor car and kidnapping for an hour its owner, Red Carter, local race horse fancier, Sheriff Harvey Freas and his deputies withdrew from the woods, admitting that the desperado had eluded them.

A. T. Smith of Purdon was a visitor here Wednesday.
